

St. George House

St. George House, a Habitat funded residence operated by LOFT Community Services, provides a home for 26 adults with psychiatric illnesses and a history of homelessness.

St. George House promotes the physical and emotional health and stability of the residents by providing a safe and supportive environment.

With the help of 24 hour staff support, residents rediscover their sense of power, individuality and self-respect. SGH also provides outreach and partnership with community services.

Referrals to SGH are made through Habitat Intake Services. If you or someone you know needs to arrange a referral, call 416-537- 2721.

Growth, respect, individual rights and personal dignity.

St. George House strives to ensure these inalienable rights for each resident by providing the following professional services:

- Personal Support Workers on staff.
- Supportive Counselling.
- Support from peers sharing similar issues and concerns.
- Co-ordination of external services.
- Three nutritious meals per day, with coffee, tea, juices and snacks available throughout the day.
- Social and recreational activities.

Personal hygiene supplies, laundry supplies and facilities, and housekeeping services are all provided on site.

Housing for vulnerable individuals.

St. George House is proud of the excellent supportive housing program we provide for some of society's most vulnerable people.

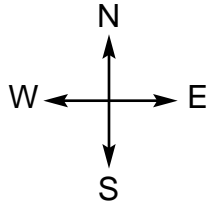

SGH depends on the generosity of the community to help us meet the many needs of the residents. We are always in need of donations of money, clothing, furniture and certain foodstuffs. Volunteers play an important role in supporting residents' needs and are always welcome.

If you can participate through donations or volunteering or would simply like more information regarding the St. George House Program, please contact our staff at:
